

A Million Valentines

This poem is in our
100 Days of School and More
E-Book

I've never seen a million,
It's pretty big, I guess.
I keep asking everyone.
And they just say, "Oh yes" ...

"A million is an awful lot" ...
"A great big, huge amount" ...
But I am really worried,
I don't know how to count.

I'm learning all my numbers,
I'm trying really hard.
I got this pile of Valentines.
I'm counting all the cards.

And now I've got a problem
And I'm going to need a friend.
I'm really very smart, you see,
But I can't count past 10.

And so this is a problem
For me to figure out.
I've got a million Valentines
I've really got to count.

I know there are a million
Just sitting in that pile.
My Valentines are everywhere.
I'll be counting for a while!

So now I've seen a million
And I can't believe my eyes!
A million Valentines to count...
Thanks a bunch you guys!
