

Love Feels...(for Valentine's Day)

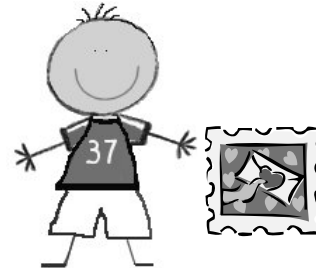

(Sung to: Row, Row, Row Your Boat)

C
Love feels good inside,
C
To know that someone cared.
C
It's great to have and great to give.
G C
And better when it's shared.

C
So, now I'll give my Valentines
C
To show my friends I care.
C
I'll give these cards to everyone
G C
I'll get some and we'll share.

C
We'll all feel good inside,
C
And count the Valentines
C
Let's count them all together now
G C
We'll gather yours and mine.

C
Guess how many Valentines
C
We have here in our class?
C
All together we will count
G C
And then we'll know at last!

Activity

Gather up all the Valentine Cards in the class.
As a group, look at the number of cards gathered.
Discuss numbers and estimating.
Students estimate the total number of Valentine Cards.
Students write down their estimates on pieces of paper.
Students' estimates are collected and put into a jar or box.
Cards are counted.
Whose guess was the closest?
